

WORK SESSION

ATTENDANCE:

Claude Shriver, Scott Haws, Albert Leno, II, Louis Giavasis, Lisa Campbell, Eric Williams, Steve Peroz, Todd Alexander, Chuck Kegley and John Sabo.

Mr. Williams introduced the proposed property maintenance code to the Board. A copy of that is attached with the documents for these minutes. He told the Board that it would require two public meetings not unlike the lighting district meetings basically asking people if they had questions or concerns or were in favor or opposed to it. He also said that the Ohio Revised Code was very plain in its wording as to what we were able to do and what we were not able to do. It also addresses areas that the County can do and that the State can do and we may not have anything that overlaps with their jurisdictions. Mr. Williams said that we would be proposing this for unoccupied, vacant and abandoned property. It would require that we appoint a code official and describe the duties and qualifications and that individual be properly trained. Discussion ensued by the Board members as to the possibility of including rental properties and/or commercial properties. Mr. Leno had concerns about indigent people who have lost their jobs and could no longer afford to maintain their property but could make their house payments so they could stay in their home. He is concerned that this would be a hardship on them and just be adding to their financial burdens. Mr. Williams said that the Jackson Township does have a property maintenance code and they do not **enforce it and when he was asked why they don't enforce it he said for** the very reasons that we are discussing this evening, that it does seem to be rather cumbersome.

NEW BUSINESS:

1. SRO Deputy – Plain Local Schools
The Township has again received a request from Chris Smith and the Plain Local Schools, again asking that we share 50% of the cost for this particular program. After detailed discussion as to the necessity and to the value that Chad Smith provides at the Schools it was decided to have a meeting with Chris Smith, at the next meeting to see if perhaps they would do more of the funding on their own. Mr. Giavasis spoke in favor of going forward with this, as did Mr. Leno and Mr. Haws. However, Mr. Haws did say that he felt that we should look into the funding and the school should take a larger share, as they have passed a continuing levy and perhaps they would do 75% and we would pay 25%. He also said that he would like to try to attempt to contact the City of Canton **again to see if they’re contacted. There was also questions asked to Sergeant Curry from the Sheriff’s Department** as to the time that has saved our deputies on the streets by having Deputy Smith in **the school’s and he said that, that did happen because he could work with the daily problems within the school’s and our deputies** would not have to be summoned there. Sergeant Curry also mentioned that Canton Local has a resource officer in their schools. Mr. Shriver asked if the Township paid any portion of that and he said no they did not. Mr. Shriver just pointed out that for the last two years we have not received the income that we budgeted for from our real estate taxes and that had never happened before and he feels that due to the economic climate, things are not going to get any better next week or the week after. And the Township is not asking the schools for any subsidized money to help with the paving of their parking lots and their programs and he felt that we really needed to take a hard look at this and that that was his opinion of this from the Fiscal Office.
2. Stark County Health Department
#10-344 Motion by Mr. Haws,

- 3. Stormwater Mapping – Accurate Technologies
They put on a video display of the mapping for the Storm Water Program within Plain Township; they used Perry Township as an example. We will be looking at this further. It was very impressive that they could do the overlay of all the culvert pipe, all of the water in Perry Township, show the direction of flow, the size of the pipes and show where each man hole was. It was very impressive and this will save the Township an enormous amount of money to have this project completed because it is a mandate from the federal EPA. We will be meeting with them again and Mr. Iacino and Mrs. Campbell will be talking with them to get further information.
