

# Winter 2022-2023 Programming

## Home Winterization

**When: Wednesday, November 9th at 5:30 p.m.**

**Where: 2650 Richville Dr. SE, Massillon, OH 44646**

Join us to learn about winterization techniques to protect your home and lawn from harsh Ohio winters. Topics include lawn, tree, and shrub management as well as rain barrel preparation, equipment maintenance, and spring preparation.

## The Time is NOW: Invasive Species Control

**When: Thursday, November 17th at 5:30 p.m.**

**Where: 2650 Richville Dr. SE, Massillon, OH 44646**

Fall is an exceptional opportunity to manage invasive plant species on your property. Learn how to identify them, understand their impact on ecosystems, and control them. This workshop will help you develop management strategies to successfully manage these ecological threats.

## Green Cleaning

**When: Thursday, January 5th**

**Where: Stark Soil & Water YouTube Channel**

Check out our green cleaning video series just in time for the new year! Topics include the advantages of green cleaning products, methods for cleaning your appliances, and instructions on how to make your own green cleaning products.

## Symbiotic Wetlands

**When: Thursday, January 19th at 11:30 a.m.**

**Where: 2650 Richville Dr. SE, Massillon, OH 44646**

Learn about the services wetlands provide such as storm water retention, flood control, recreation opportunities, and improving water quality. Then, learn how to return the favor and protect our wetlands by minimizing pollution and reducing runoff.
